

- **Diesel – Study on the reduction of emissions from diesel locomotives**
  - Delivered WP2 Report on the Technical and Operational measures to improve emissions performance of Rail Diesel.
  - Project duration 2005 January to December.
  - The Diesel Study will be delivered to the European Commission DG Transport to assist their inter-service work with DG Enterprises in the revision of the Diesel Directive (NRMM) in 2007.
  - The Diesel Study is one of the axes of action complemented by GREEN and the revision of the UIC Diesel leaflet, in the frame of the Diesel Directive for the Non-Road vehicles

**UNIFE Diesel Experts Groups** is following on this project
